

## **\*Write a Message in the Stars\***

**This is something you can put on a wall with pictures of stars affixed to the walls, or use star patterned wrapping paper and have people write on it. Be creative!**

**Please take a marker or pen and write a message in the stars! Feel free to sign your name or leave it anonymous.**

**You may use either of these prompts below:**

- What lights your creative fire and helps you spark your own flint? What helps you turn the pilot light on in your own life and reconnect to the “Divine,” to your greater purpose and to “being in the flow?”**
- Your star shines bright. What does it have to say to the universe? What about your soul are you most grateful for?**
